ment meets the difficulty. In actual practice we have found that Impeachment does not work, that unfit judges stay on the bench in spite of it, and, indeed, because of the fact that impeachment is the only remedy that can be used against them.

There is one kind of recall in which I very carnestly believe, and the immediate adoption of which I urge, when a judge decides a constitutional question, when he decides what the people as a whole can or cannot do, if the people should have the right to expect it that decision if they think it worns. We should hold the judiciary in all respect; but it it is both absurd and degrading to make fetish of a judge or of an yone else.
